

Practical Nursing (LPN)

Certificate Program

Texas County
Technical
College

TCTC. Where we know
you by name, and help
is always available.

The opportunities for LPNs are almost limitless. You could opt for the fast-paced environment of the ER, the residential atmosphere of a long-term care facility, or anything from clinics to hospitals to home health. There are not enough trained LPNs to fill all of the open jobs, so nurses are in a great position.

No Prerequisites!

Starts every fall
Program length : 3 semesters/47 weeks

94%
NCLEX pass rate for
2018 LPN graduates

TCTC Graduates have a great reputation among local healthcare facilities, which is why nearly every one of our graduates is able to secure a job right out of college.

"TCTC graduates tend to come out much stronger clinically speaking. I noticed the grads I hired were able to work with patients and have the confidence of an experienced nurse."

-John Sawyer, TCMH Hiring Manager and TCTC Nursing Instructor

"I wanted to be able to work in my dream unit and be able to spend evenings with my family, which is why I decided to come back to school and become a nurse."

-2019 TCTC Graduate

| | Total | 62 |

◇ indicates core classes ** indicates general education classes

Many students choose our LPN program because they can complete the program in 1 year, begin working as a nurse, and later bridge to the RN program while still working.

"The instructors were always helpful and fair and passionate about what they were teaching so it made it fun to learn. Plus, the program schedule still allowed me to work."
