

Accelerated LPN to RN

Academic Associate of
Science in Nursing

Texas County
Technical
College

TCTC. Where we know
you by name, and help
is always available.

The opportunities for RNs are almost limitless. You could opt for the fast-paced environment of the ER, the residential atmosphere of a long-term care facility, or anything from clinics to hospitals to home health. There are not enough trained RNs to fill all of the open jobs, so nurses are in a great position.

Starts every May

Program length:
2 semesters + summer transition
session / 47 weeks

93%
NCLEX pass rate for
2019 RN graduates

TCTC Graduates have a great reputation among local healthcare facilities, which is why nearly every one of our graduates is able to secure a job right out of college.

“TCTC graduates tend to come out much stronger clinically speaking. I noticed the grads I hired were able to work with patients and have the confidence of an experienced nurse.”

-John Sawyer, TCMH Hiring Manager and TCTC Nursing Instructor

"I wanted to be able to work in my dream unit and be able to spend evenings with my family, which is why I decided to come back to school and become an RN.

-2019 TCTC Graduate

Prerequisites
